LITTER REGISTRATION

The registration fee is based on the number of pups being registered. If registering under purebred status both parents **MUST BE** of the same breed. Developing breeds **MUST NOT**ATE breed of each parent. If both parents are not already ABA registered it is highly advised to use the Family Registration option instead. It is required that at least one parent be ABA registered and highly advised for both as only having one parent ABA registered can significantly impact how well your dog's Family is tracked overtime.

It is not required that pups be given formal names as the names are merely temporary until the new owners provide official permanent names of their own. If not naming the pups simply mark numbers in the boxes below. Example 1,2,3. If you do wish to name them this is also fine.

Each pup will be provided their own individual temporary registration certificate that will include a transfer form on the back for the new owner to complete their pup in their own names. Once completed a new set of personalized material will be completed and sent to the new owner that will include their own personal information.

Providing us with the most advanced genealogy information possible is important when such information is available as this allows us to develop the most advanced pedigree information possible for new owners.
